
Mail Processing Network
Rationalization Service Changes, 2010

Docket No. N2012-1

NOTICE OF INTERVENTION OF MARK W COYLE, INDIVIDUAL

Pursuant to Order No. 1027, dated December 7, 2011, and Section 20 of the Commission's Rules of Practice and Procedure, 39 C.F.R. § 3001.20, Mark W. Coyle, Individual Customer, hereby gives notice of his intervention as a full participant in the above-captioned proceeding.

I depend on the mail to receive medication, checks, and pay bills. I frequently utilize Priority Mail, Certified Mail, and Delivery Confirmation to send important mail. Relaxing the mail delivery standard and allowing the Postal Service to close and consolidate mail processing facilities would present an undue hardship on me and many other customers like me. Of utmost importance is receiving my medication in a timely manner. If the Service is successful at changing the delivery standards and closing or consolidating processing facilities, it will add two to three days to the amount of time it takes to receive vital medication through the mail. If I run out on Friday, I usually have my medicine no later than Saturday. Under the proposed plan, it could be Tuesday or Wednesday before I receive it and in the case of a holiday, it will be delayed even more. I am a heart patient and cannot be without my medicine for that length of time. The same principle applies to receiving my checks. I need my money on time every month and it would create financial difficulties if I had to wait longer for my checks to arrive. I must be able to depend on the mail to get my bill payments to their destination in a timely manner. I suppose I could mail my payments earlier in the month, but if I don't receive my check until later in the month, I have to decide if I want to write a "hot check" or pay the additional late fees and interest for mailing it late.

Service of documents may be made upon the undersigned.

Respectfully submitted,

_____/s/_____
